

Multiplication Concept Builder 3.1

$$5 \times 3 = 15$$

Groups of "Things" TOTAL

Draw the **FACT**. Cross out extra groups. For the "things" in each group, draw \checkmark , ☺ , ♥ , etc.

--	--	--	--	--	--	--	--	--	--

_____ + _____ + _____ + _____ + _____ + _____ + _____ + _____ + _____

Multiplication is **REPEATED ADDITION!**

Rewrite the fact: $\bigcirc \times \bigcirc = \square$

Write the **COMMUTATIVE**: $\bigcirc \times \bigcirc = \square$

Draw the **COMMUTATIVE**. Cross out extra groups. For the "things" in each group, draw \checkmark , ☺ , ♥ , etc.

--	--	--	--	--	--	--	--	--	--

_____ + _____ + _____ + _____ + _____ + _____ + _____ + _____ + _____

Below are the **ARRAYS** for the fact and commutative. Record the **factors**: the number of groups (rows) and "things" (circles per row). Then write the **product** (total). The commutative has been done for you.

ARRAY for 3X5

1	2	3	4	5
1	2	3	4	5
1	2	3	4	5

Commutative

$$\frac{3}{\text{Groups of "Things" (Rows of Circles)}} \times \frac{5}{\text{Product Total}} = \frac{15}{\text{Product Total}}$$

$$\frac{\quad}{\text{Groups of "Things" (Rows of Circles)}} \times \frac{\quad}{\text{Product Total}} = \frac{\quad}{\text{Product Total}}$$

Your Turn!

ARRAY for 5X3

1	2	3
1	2	3
1	2	3
1	2	3
1	2	3

Fact

Create a **FACT FAMILY**. Write the **FACTORS** in the circles. Write the **PRODUCT** in the boxes.

$\bigcirc \times \bigcirc = \square$ $\square \div \bigcirc = \bigcirc$
 $\bigcirc \times \bigcirc = \square$ $\square \div \bigcirc = \bigcirc$
