

Multiplication Concept Builder 9.3

$$4 \times 4 = 16$$

Groups of "Things" TOTAL

Draw the **FACT**. Cross out extra groups. For the "things" in each group, draw \checkmark , ☺ , ♥ , etc.

--	--	--	--	--	--	--	--	--	--

_____ + _____ + _____ + _____ + _____ + _____ + _____ + _____ + _____

Multiplication is **REPEATED ADDITION!**

Rewrite the fact: $\bigcirc \times \bigcirc = \square$

Write the **COMMUTATIVE**: $\bigcirc \times \bigcirc = \square$

Draw the **COMMUTATIVE**. Cross out extra groups. For the "things" in each group, draw \checkmark , ☺ , ♥ , etc.

--	--	--	--	--	--	--	--	--	--

_____ + _____ + _____ + _____ + _____ + _____ + _____ + _____ + _____

Below are the **ARRAYS** for the fact and commutative. Record the factors: the number of groups (rows) and "things" (circles per row). Then write the product (total). The commutative has been done for you.

ARRAY for 4X4

1	2	3	4
1	2	3	4
1	2	3	4
1	2	3	4

Commutative

$$\frac{4}{\text{Groups of "Things" (Rows of Circles)}} \times \frac{4}{\text{"Things" (Circles)}} = \frac{16}{\text{Product Total}}$$

Your Turn!

1	2	3	4
1	2	3	4
1	2	3	4
1	2	3	4
1	2	3	4

Fact

$$\frac{\quad}{\text{Groups of "Things" (Rows of Circles)}} \times \frac{\quad}{\text{"Things" (Circles)}} = \frac{\quad}{\text{Product Total}}$$

Write the fact here.

Write the commutative here.

Create a **FACT FAMILY**. Write the **FACTORS** in the circles. Write the **PRODUCT** in the boxes.

$\bigcirc \times \bigcirc = \square$	$\square \div \bigcirc = \bigcirc$
$\bigcirc \times \bigcirc = \square$	$\square \div \bigcirc = \bigcirc$
