

Complete each connector by filling in the missing product.

The page contains several multiplication and division connectors. Each connector consists of a central circle with text and four surrounding circles, each containing a math problem with a blank space for the answer.

Top Left Connector: Central circle: Lesson 4: Nines. Surrounding circles: $3 \overline{) \square}^9$, $\begin{array}{r} 3 \\ \times 9 \\ \hline \square \end{array}$, $\begin{array}{r} 9 \\ \times 3 \\ \hline \square \end{array}$, $9 \overline{) \square}^3$.

Top Right Connector: Central circle: Lesson 4: Nines. Surrounding circles: $7 \overline{) \square}^9$, $\begin{array}{r} 7 \\ \times 9 \\ \hline \square \end{array}$, $\begin{array}{r} 9 \\ \times 7 \\ \hline \square \end{array}$, $9 \overline{) \square}^7$.

Middle Left Connector: Central circle: Lesson 2: Twos (review). Surrounding circles: $2 \overline{) \square}^6$, $\begin{array}{r} 6 \\ \times 2 \\ \hline \square \end{array}$, $\begin{array}{r} 2 \\ \times 6 \\ \hline \square \end{array}$, $6 \overline{) \square}^2$.

Middle Right Connector: Central circle: Lesson 3: Fives (review). Surrounding circles: $4 \overline{) \square}^5$, $\begin{array}{r} 5 \\ \times 4 \\ \hline \square \end{array}$, $\begin{array}{r} 4 \\ \times 5 \\ \hline \square \end{array}$, $5 \overline{) \square}^4$.

Bottom Left Connector: Central circle: Lesson 3: Fives (review). Surrounding circles: $7 \overline{) \square}^5$, $\begin{array}{r} 5 \\ \times 7 \\ \hline \square \end{array}$, $\begin{array}{r} 7 \\ \times 5 \\ \hline \square \end{array}$, $5 \overline{) \square}^7$.

Bottom Middle Connector: Central circle: Lesson 3: Fives (review). Surrounding circles: $8 \overline{) \square}^5$, $\begin{array}{r} 5 \\ \times 8 \\ \hline \square \end{array}$, $\begin{array}{r} 8 \\ \times 5 \\ \hline \square \end{array}$, $5 \overline{) \square}^8$.

Bottom Right Connector: Central circle: Lesson 4: Nines. Surrounding circles: $4 \overline{) \square}^9$, $\begin{array}{r} 9 \\ \times 4 \\ \hline \square \end{array}$, $\begin{array}{r} 4 \\ \times 9 \\ \hline \square \end{array}$, $9 \overline{) \square}^4$.

Bottom Far Right Connector: Central circle: Lesson 4: Nines. Surrounding circles: $8 \overline{) \square}^9$, $\begin{array}{r} 9 \\ \times 8 \\ \hline \square \end{array}$, $\begin{array}{r} 8 \\ \times 9 \\ \hline \square \end{array}$, $9 \overline{) \square}^8$.
